

2025 ANNUAL REPORT

Thank you for your support in 2025!

Dear Chamber Members,

Thank you for continuing to invest in the Kanab Area Chamber of Commerce. Our members allow us to provide services to area businesses and the community. We are committed to doing all that we can to keep you informed and support your business or organization. Please don't hesitate to contact us if there's any way we can help your business continue to grow.

In keeping with our mission we're providing this Annual Report of the chamber's progress toward areas of focus established the previous year. It's been exciting to see the chamber grow, both in membership and services, and we couldn't have done it without the support of our members and partners in the community.

Here's to another year of growth and opportunity!

Pat Guerreno

President, Kanab Area Chamber of Commerce

2025 Chamber Board Members

Ron Thomas

Board Member

Mission

The Kanab Area Chamber of Commerce supports the creation of a strong local economy, promotes the local business community, provides networking and training opportunities for its members, and represents local business interests to government entities.

About the Chamber

Established in 1967, the Kanab Area Chamber of Commerce is a nonprofit organization whose members are individuals and business owners invested in developing their businesses, growing our economy, and strengthening our community. We work with our members and partners to make Kanab and the Kanab area the best place to live, work, and do business. Like most trade organizations, the Chamber is categorized as a 501c6 nonprofit corporation governed by its Board of Directors. All board members and officers are volunteers, and are not compensated for their service. Revenue from membership fees covers the cost of meetings and events including training, seminars, and summits, as well as the cost of our online business directory and newsletter.

What we do

CONNECT

PROMOTE

DEVELOP

ADVOCATE

Monthly luncheons and breakfasts; business to business and business to client networking & promotion; trainings, seminars, special events; a voice for local business in government.

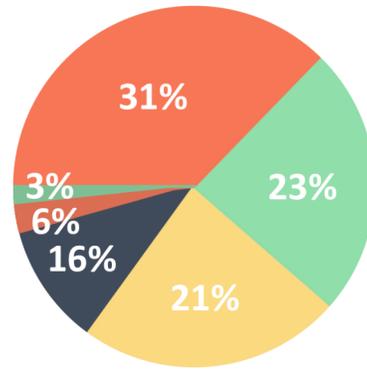

PROGRESS IN 2025:
